

SAFETY OFFICER

Responsibilities

General responsibilities include but are not limited to:

- Visit project sites on a routine basis and carry out safety inspections to check policies and procedures are being properly implemented.
- Ensure working practices are safe and comply with state and federal regulatory requirements.
- Advise and instruct site personnel on various safety-related topics (noise levels, use of safety equipment etc.).
- Keep records of inspection findings and produce reports that suggest improvements.
- Enforcing internal health and safety policies/strategies.
- Help develop Job Hazard Analysis (JHA) and supporting the development of site specific Health and Safety Plans.
- Maintain positive and proactive relations with managers and employees, as well as our customers and regulatory agencies.
- Record and investigate incidents to determine root cause.
- Stop any unsafe acts or work that seem dangerous or unhealthy.
- Conduct and documenting daily safety meetings.
- Perform additional safety duties as assigned by HS Director.

Requirements
